# MS ROALD AMUNDSEN

MS Roald Amundsen, launching in 2019, will be our first hybrid-powered cruise ship. She will feature underwater drones, kayaks, and small explorer boats for landings. Guests will be able to work out in the onboard gym or running track, swim in the pool, and enjoy the scenery through panoramic windows or from a hot tub. For dining, MS Roald Amundsen will offer three fantastic options: Lindstrøm, our exclusive restaurant; Fredheim, featuring fine international cuisine; and Aune, our primary restaurant. The Science Center will be packed with high-tech equipment and learning tools, and will be a great place to meet, mingle, and deepen your understanding of the places we explore.

### Onboard activity highlights:

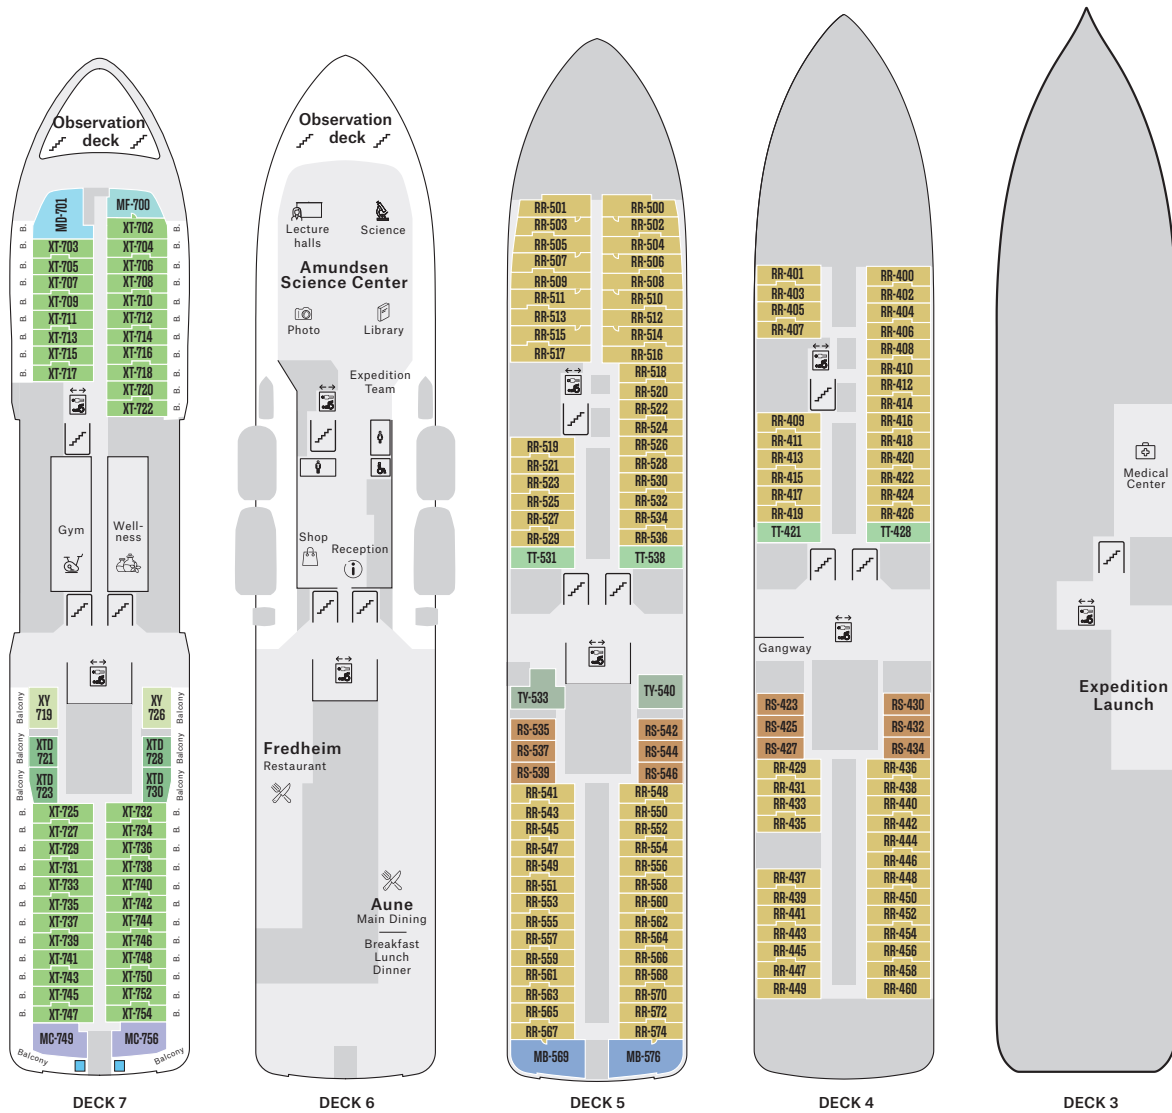

Lecture program, Young Explorers Program, Photography Workshop, Amundsen Science Center.
